# Preface

---

---

The Federal criminal justice system addresses major areas of social concern—high level drug offenses, public fraud, weapons offenses, and bank robberies, for example. Decisions regarding Federal offenders also reflect current legislative policies on pretrial release, parole, and probation. The study of Federal criminal justice processing is thus critical for understanding the nature of Federal criminal justice activity and evaluating the effectiveness of significant legislative policies.

This compendium represents the first in a series of annual reports describing all phases of Federal criminal processing during a given calendar year. It reports data in both text and tabular format and summarizes in several charts the overall proportions of defendants who were prosecuted, convicted, and incarcerated in 1984.

The Bureau of Justice Statistics Federal justice database, the source for this compendium, contains data describing all aspects of Federal criminal justice case processing—prosecution, pretrial release, adjudication, and corrections. Data on investigations will also soon be added to the database. Data are obtained directly from operational agencies and are linked together on the basis of name, date of birth, identifying numbers, and other personal identifiers.

BJS hopes that the material in this compendium, and those issued subsequently, will assist criminal justice practitioners, policymakers, and researchers in the analysis of current criminal justice caseload, the identification of trends over time, and the impact of changing criminal justice policies and priorities.

Joseph M. Bessette  
Acting Director  
Bureau of Justice Statistics

# Introduction

The Compendium of Federal Justice Statistics is the first comprehensive Bureau of Justice Statistics report presenting an overview of Federal criminal case processing. Text and tables in the compendium describe the progress of Federal criminal suspects through the system from prosecution through adjudication, sentencing, and corrections. The 1984 compendium describes activity during the calendar year 1984. Future editions of the compendium will be issued by BJS on an annual basis.

The BJS Compendium of Federal Justice Statistics is intended for use by criminal justice policymakers, practitioners, and researchers.

To facilitate use of the compendium, data are presented in both tabular and text format. Tables follow each of the five chapters and describe prosecution, pretrial release, adjudication, sentencing, and corrections. Each chapter includes a short summary of the process described in the data and highlights salient information from the tables.

The data in the compendium are extracted from the BJS Federal justice database which links data describing each component of Federal processing. Data are presently included from the Executive Office for the U.S. Attorneys, the Pretrial Services Agency (PSA), the Administrative Office of the U.S. Courts, and the U.S. Parole Commission. Future editions of the compendium will incorporate data from additional Federal agencies.

In the Federal justice database, individuals and corporations are tracked from one stage of processing to the next. Files are linked on the basis of names, demographic characteristics, and key events to permit a system-wide view of the Federal justice process. Consistent with Federal statute, identifiable data in the database may not be revealed or used for any purposes other than research or statistics.

Incomplete linkages do not affect any of the tables in this publication that are derived from a single data source, since records are included in the tabulated statistics whether or not they have been linked to other records in the database. However, some tables in this compendium provide greater richness and detail by drawing on more than one data source for each case; these tables are necessarily based upon linked records only.

## Organization of the compendium

Each chapter of the compendium describes a major stage in the processing of criminal suspects and defendants. With the exception of tables and text in Chapter 2, all chapters describe data from all U.S. judicial districts. More detailed data are included in the district tables included at the end of this compendium. The contents of the compendium include:

**System overview.** This section provides a graphic overview of the Federal system. Figure 1 is a flow chart of Federal processing. Figure 2 describes the attrition of suspects from prosecutorial review to sentencing, incarceration, and release.

**Chapter 1.** This chapter describes decisions taken by Federal prosecutors in screening criminal matters and describes the characteristics of cases prosecuted and declined.

**Chapter 2.** This chapter provides information on pretrial release, detention and defendant conduct while awaiting trial. Data in the 1984 compendium are based on 13 judicial districts. Subsequent compendia will include all judicial districts.

**Chapter 3.** This chapter describes actions of U.S. district courts in adjudicating guilt or innocence. Characteristics of offenses and convicted offenders are described.

**Chapter 4.** This chapter describes sentencing decisions and offense and offender characteristics.

**Chapter 5.** This chapter addresses corrections. Data describe time served in prison and the results of supervision under probation and parole.

**Methodology.** This section describes the procedures followed in linking data and developing specific tables.

**Data notes.** This section contains information relevant to the interpretation of individual tables.

**Glossary.** This contains definitions for terms used in the compendium. Since many terms used in the text or tables have specialized meanings (either because they refer to Federal law or because of reporting procedures in the Federal agencies supplying the source data) readers are encouraged to check the glossary for exact definitions of tabulated data.

## Note to reader

The tables in the compendium were constructed to permit valid comparisons within each table and to allow the reader to compare percentages (but not raw totals) across tables. It should be understood, however, that the total number of subjects shown in a particular table may not equal the number of subjects involved in a particular stage of processing since some records could not be linked and some data sources did not include information on particular data elements classified in a particular table. Data notes indicate the exact universe for individual tables. Numbers cited in the text are based on exact calculations and may vary slightly from totals derived from tables.

# Chapter 1: Prosecution

Federal criminal cases may be brought by the U.S. Attorney's Office or by the Criminal Division of the U.S. Department of Justice.

Most commonly, investigations are referred to the U.S. Attorney by the Criminal Division of the U.S. Department of Justice, by a Federal investigative agency (primarily the Drug Enforcement Administration; Federal Bureau of Investigation; Postal Inspection Service; Bureau of Alcohol, Tobacco, and Firearms; or Secret Service), or by a State or local investigative agency. Investigations may also be initiated and cases brought directly by U.S. Attorneys or by the Criminal Division of the U.S. Department of Justice.

Investigations referred to the U.S. Attorneys may be immediately declined for prosecution or pursued further. In the latter case, additional investigation may be conducted in order to determine whether the matter should be filed as a case in the Federal courts, referred to a U.S. Magistrate for disposition, or declined for prosecution. Matters that are declined may be referred to another authority for prosecution or settled through alternative resolution procedures.

Declination policies frequently limit the types of matters that will be filed as cases or stipulate the level of investigation that must be completed before a presentation can be accepted as a matter. Individual policies vary widely across Federal districts and may be influenced by a variety of factors, including Federal prosecutorial policies, regional needs, and individual U.S. Attorneys' priorities and staff resources.

For purposes of statistical calculations, only those investigations and other activities requiring over 1 hour's attention are classified as "matters" by the U.S. Attorney.

#### Matters received (table 1.1)

Over 90,000 suspects were involved in matters received by the U.S. Attorneys in 1984 (table 1.1). About a fourth of these suspects

(24,000) were investigated for fraudulent property offenses, which include fraud (except tax fraud), forgery, embezzlement, and counterfeiting. Of these, almost 15,000 persons (16% of all suspects in matters received) were investigated for frauds, other than tax fraud.

Drug offenses as a group accounted for 18% of all suspects in matters received. Drug offenses include possession, manufacturing, importing, and trafficking in narcotics, controlled substances, and marijuana as well as any unspecified drug-related offense.

Public-order regulatory offenses accounted for 9% of all suspects in matters received; 9% of all suspects were investigated for immigration offenses; and 3% were investigated for weapons offenses.

Non-fraudulent property offenses and violent offenses accounted for 6% and 5% of all suspects, respectively. The majority of these were investigated for robbery (3% of all suspects) or larceny (3%). Less than 1% of all suspects were investigated for rape or other sexual offenses.

Ten percent of suspects could not be classified by substantive offense because the recorded United States Code citations referred to offenses such as conspiracy and aiding and abetting.

#### Disposition of matters concluded (table 1.2)

Matters involving 77,768 suspects were concluded by U.S. Attorneys in calendar year 1984 (table 1.2).

U.S. Attorneys filed cases against 57% of the suspects, declined to prosecute 28%, and referred 15% for disposition by U.S. Magistrates. Of the 44,058 suspects in matters filed as cases, 25% (11,224 persons) were investigated in connection with drug offenses; 24% (10,753 persons) with fraudulent property offenses; and 12% (5,313 persons) with conspiracy, aiding and abetting, and jurisdictional offenses.

#### Prosecution rates, by offense.

Among matters concluded in 1984, U.S. Attorneys prosecuted 84% of all suspects in drug offense matters and 75% of the suspects in matters involving violent crimes (table 1.2). Fifty-seven percent of suspects in all fraudulent property offense matters were prosecuted, as were 78% of suspects in tax law violations and 53% of suspects in fraud (excluding tax fraud) matters.

**Magistrates.** Overall, 15% of suspects in matters concluded in 1984 were disposed by U.S. Magistrates (table 1.2). However, 62% of all immigration suspects were disposed by U.S. Magistrates. Magistrate proceedings were also the primary method of disposition for suspects in matters concerning migratory bird violations (75%), and they played a significant role in the disposition of suspects in escape (38%) and agriculture (34%) matters.

#### Basis for declination (tables 1.3 and 1.4)

A variety of factors influence the determination to decline prosecution of a case (table 1.3).

Twenty-five percent of suspects in matters declined were not prosecuted because the evidence was too weak. Nineteen percent were not prosecuted due to the lack of a prosecutable offense. The majority of these were declined either because U.S. Attorneys ascertained that no Federal law was involved (71%) or because they found no criminal intent (28%).

Another 5% of all suspects in matters declined were not prosecuted due to minimal Federal interest.

The U.S. Attorneys' decisions not to prosecute, however, do not automatically relieve suspects of all further action: Twenty-three percent of the 21,689 suspects in matters declined by U.S. Attorneys were referred for criminal prosecution elsewhere or prosecuted in other actions; 8% were subject to some noncriminal

proceedings, such as pretrial diversion (4%) or civil or administrative alternative actions (4%).

Among matters declined, drug, robbery, burglary, and stolen property cases were more often referred to other authorities for prosecution than most other offense types (table 1.4). Slightly under half of the persons suspected of these offenses who were not prosecuted at the Federal level were referred to State or local officials (drug offenses, 44%; robbery, 45%; burglary, 48%; and transport of stolen property, 43%). The high referral rate for drug suspects is notable because Federal prosecution is declined for only a sixth of the drug suspects.

#### **Processing time (table 1.5)**

Processing time for matters is measured in months from the time a matter is received by the U.S. Attorney to the time of declination, filing as a case, or disposition by a U.S. Magistrate.

The average processing time for all matters concluded in 1984 was 7 months (table 1.5). Average processing time was higher where prosecution was declined (14 months) than where a case was filed (4 months).

The average processing time for declination was also longer than for any actions by U.S. Magistrates (1 month where suspects were convicted by a U.S. Magistrate; 8 months where suspects were acquitted).

Across all offenses, average processing time for cases filed in court was longest for suspects charged with fraudulent property offenses (6 months if the matter was filed as a case; 16 months if the matter was declined). Suspects in fraudulent property crimes who were disposed by U.S. Magistrates had an average processing time of 4 months if convicted and 11 months if acquitted.

#### **Matters concluded: Time trends (table 1.6)**

The number of matters concluded by U.S. Attorneys in the 12-month periods ending September 30, 1980 through 1984, remained basically stable, ranging from a low of 55,104 matters in 1982 to a high of 59,688 matters in 1983 (table 1.6). The number of matters concluded in 1980 and 1984 were almost exactly the same (57,861 and 57,745, respectively).

The disposition of matters was similarly constant: In each year, 67%-70% of all matters were filed as cases, and 22%-24% of all matters were declined for prosecution. The remainder was disposed by U.S. Magistrates or otherwise concluded without reaching court. Because matters may involve more than one suspect, the number of matters concluded is almost always smaller than the number of suspects whose matters are concluded in a given year (table 1.2).

# Chapter 2: Pretrial release

Pretrial release is governed by both constitutional and statutory standards. The Fifth Amendment of the Constitution guarantees that no person shall be deprived of liberty "without due process of law," and the Eighth Amendment prohibits the imposition of excessive bail. Statutory standards for the pretrial release of defendants have been established by Congress under the Judiciary Act of 1789, the Bail Reform Act of 1966, and the Bail Reform Act of 1984.<sup>1</sup>

The Judiciary Act of 1789 established a right to bail in all Federal cases except capital crimes. In practice, however, some defendants charged with lesser crimes were held due to their inability to meet financial conditions for release. The Bail Reform Act of 1966, which was intended to minimize the use of high bails as an indirect means of detaining defendants, provided that financial and other release restrictions could be no greater than were necessary to ensure a defendant's appearance at trial. The act did not authorize the use of pretrial detention either to ensure the defendant's appearance or to protect the safety of the community. The act did allow the courts to take a convicted offender's danger to the community into account, however, when considering an application for bail pending appeal.<sup>2</sup>

#### The Bail Reform Act of 1984

The Bail Reform Act of 1984 (18 U.S.C. 3141) further revised pretrial procedures to allow the pretrial detention of defendants whose release would endanger the safety of "any other person or the community."<sup>3</sup> Under the act, Federal defendants may be detained without bail if charged with specified categories of offenses and if it is determined at a special hearing that no financial or other conditions will reasonably assure the appearance of the person

and guarantee the safety of other persons in the community. Under the act, all defendants not detained under the guidelines must be released, either on personal recognizance, unsecured bond, or such conditions as are necessary to assure their appearance at trial and the public safety.<sup>4</sup>

#### Release procedures

Once arrested, a defendant must be brought before a judicial officer without unnecessary delay. The judicial officer, generally a U.S. Magistrate, sets bail. This initial hearing is the first of four opportunities for pretrial release: the initial hearing, first and second reviews, and appeal. If the defendant is still detained 24 hours after the initial hearing, he or she is entitled to a review hearing. After a second review hearing, the defendant may appeal to a higher court.

Offenders may be released at any time before trial. Some offenders, therefore, may be detained for some time prior to their eventual release before trial. This would generally occur where a hearing review or appeal results in a lowering of bail conditions or the defendant requires additional time to arrange compliance with the originally set terms of release. Offenders who have been detained prior to their release are included in tabulations of both "offenders detained" and "offenders released."

#### Types of pretrial release

Defendants may be released on:

- **Personal recognizance**—defendant released subject to no financial or other conditions.
- **Unsecured bond**—no money required to be posted before release, but defendant is liable for full bail amount—if he or she fails to appear.
- **Conditional release**—defendant released subject to financial or other

types of conditions. Financial conditions may involve a deposit bond (defendant required to post a percent of the total bail amount, usually 10%), surety bond (defendant released subject to guarantees by a third person that the full bail amount will be paid), or collateral bond (collateral equal to the full bail amount required to be posted by the defendant before release).

Other conditions for release may include any combination of restrictions that are deemed necessary to guarantee the defendant's appearance at trial or the safety of the community. Nonfinancial conditions commonly place restrictions on the defendant's movements, associations, and/or actions.

#### Factors relating to release

A variety of factors are related to the type or level of bail imposed and the likelihood that the defendant can meet bail conditions. Earlier studies show that the defendant's record, offense type, and jurisdiction all affect the level of bail imposed. Defendants' records, incomes, marital status, age, sex, and race all affect their ability to post bail.<sup>5</sup>

#### Rates of release and detention (table 2.1)

**Release.** Seventy-nine percent of all defendants who had a bail hearing in 1984 and were interviewed by the Pretrial Services Agencies were released at some time prior to trial (table 2.1). The majority of defendants (61%) were released before trial without financial conditions; of these, 25% were released on personal recognizance, and 75% were released on unsecured bond. Twelve percent of the defendants released had been detained for at least 2 days prior to release.

all defendants interviewed were initially held for 2 or more days before their cases were decided (the criterion for "detention" in this compendium) (table 2.1). Twenty-nine percent of all defendants detained in 1984 were subsequently released at some time prior to trial.

As might be expected, violent crimes—including murder, rape, robbery, and threats against the President—resulted in detention more frequently than any other offense type: Seventy-four percent of all defendants accused of such offenses were detained. Next to violent crimes, immigration offenses had the highest rate of detention (69%). This high rate may be attributable to the nature of the offense: Defendants accused of immigration offenses may be temporarily detained to permit their transfer to Immigration and Naturalization Service (INS) custody or to facilitate their deportation.<sup>6</sup> Other crimes with high detention rates were burglary (64% of all interviewed suspects) and drug trafficking (43%).

Defendants charged with "white collar" offenses were unlikely to be detained while awaiting trial. Only 17% of those charged with fraudulent property offenses and 4% of those accused of tax law violations were detained. Among released defendants charged with fraudulent property offenses, 24% were released on personal recognizance, 64% on unsecured bond, and 12% on financial conditions. Defendants charged with regulatory offenses were also seldom detained. Only 20% of defendants arrested and charged with these offenses were detained.

#### Comparison of detention rates before and after the Bail Reform Act of 1984

Detention under the Bail Reform Act of 1984 occurred at a slightly higher rate than under the Bail Reform Act of 1966 (34% of all interviewed defendants vs. 31%, respectively). The basis for the detention, however, changed substantially.

Among all interviewed defendants detained under the 1984 act, 49% were held without bail, and 51% were detained by the inability to meet financial conditions. Under the Bail Reform Act of 1966, virtually all detentions (94%) resulted from the defendants' inability to meet financial conditions.

The higher rate of detentions without bail under the 1984 act occurred for almost all offense types: Over 50% of all detained defendants accused of non-fraudulent property offenses, drug offenses, and non-regulatory public-order offenses were held without bail under the new act. This contrasts with less than 10% held without bail under the 1966 act. During the first months under the 1984 act, detained defendants charged with fraudulent property offenses were significantly less likely to be held without bail than those facing other charges (34% vs. 53%, respectively).

#### Time of release (table 2.2)

In all, 71% of defendants interviewed in 1984 were released at their initial hearing. The cases of those not released were reviewed 24 hours later. Of these reviewed defendants, 21% were released at this point. The cases of remaining defendants were again reviewed, resulting in 5% of them being released. One percent of the defendants who had not been released by this process obtained release by appealing their cases (table 2.2).

Among defendants released at the initial hearing, 83% were released without financial conditions (either on personal recognizance or unsecured bond).

#### Release on financial conditions (tables 2.3 and 2.4)

Slightly over half (51%) of all defendants required to meet financial conditions were released at some time prior to trial (table 2.3). About half of these (27% of all defendants required to meet financial conditions) were detained at least 2 days prior to release.

The likelihood of a defendant's pretrial release depended on both the type and amount of financial bail set. Eighty percent of defendants required to post deposit bond were released, compared to 43% and 47% of defendants required to meet surety and collateral bond conditions, respectively. As expected, fewer defendants (41%) were released where bail was set over \$500,000 than where bail was below that amount.

#### Incidence of pretrial violations (tables 2.5 and 2.6)

Pretrial misconduct includes failure to appear at court, arrest for a new crime (either a felony or a misdemeanor), and any technical violation of the defendants' bail conditions. Overall, 6% of all defendants who were released violated the terms of their pretrial release; 1% failed to appear; 3% were charged with a new offense (2% with felonies and 1% with misdemeanors); and 2% committed technical violations of their bail conditions (table 2.5).

Defendants charged with violent crimes were less likely to complete their pretrial period without violation than other classes of defendants. Fourteen percent of persons charged with violent crimes had at least one pretrial violation, compared to 6% of the total defendant population. Almost 97% of defendants accused of regulatory offenses completed release with no violation. Defendants charged with violent offenses were particularly likely to commit new felonies (7% as opposed to 2% of all offenders).

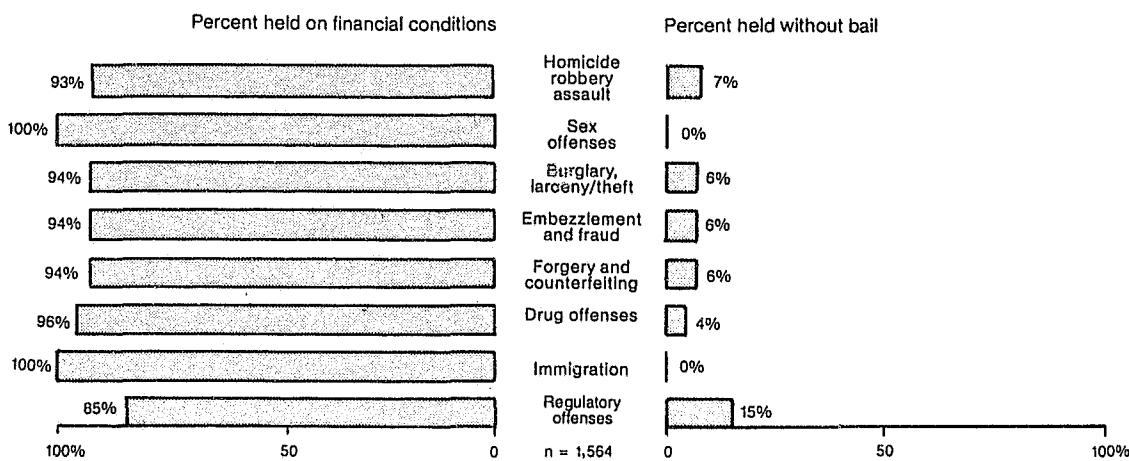

Violations were more likely for defendants released on financial conditions (10%) than for those released on personal recognizance (4%) or unsecured bond (5%) (table 2.6).

**Revocation.** Overall, a third of all defendants who violated the terms of their release had their release revoked. Defendants charged with fraudulent property offenses were least likely to have their release revoked (1%), while those charged with violent crimes were most likely (7%).

### Detentions with and without financial conditions, 1984

**Detentions in 1984 under the Bail Reform Act of 1966\***

**Detentions in 1984 under the Bail Reform Act of 1984\***

\* In 1984, the Bail Reform Act of 1966 was in force between January 1 and October 16; the Bail Reform Act of 1984 was in force thereafter.

Figure 2.1

Defendants on financial release were approximately three times as likely as other released defendants to have their release revoked as a result of pretrial misconduct: Four percent of all defendants released on financial conditions were subsequently detained, in contrast to 1% of defendants released on unsecured bond and 2% of those released on personal recognizance (table 2.6).

#### Defendant characteristics (table 2.7)

**Sex.** Men were approximately twice as likely as women to be detained for at least 2 days (35% vs. 17%, respectively). Men were also detained an average of 11 days longer than women (61 days vs. 50 days, respectively) (table 2.7). These figures may partially reflect the fact that male defendants more frequently commit those crimes that are likely to result in pretrial detention, such as violent offenses.

Women were more likely than men to be released on personal recognizance (22% vs. 14%, respectively) or on unsecured bond (56% vs. 43%, respectively).

**Race.** Thirty-six percent of interviewed defendants were described as either black (33%) or "other" (3%). In 1984 blacks were detained at a slightly lower rate than whites (29% vs. 32%, respectively) and at a significantly lower rate than other minority defendants (29% vs. 42%, respectively). Nearly half of black defendants were released on unsecured bond (49%), and another 19% were released on their own recognizance. Among white defendants, 45% were released on unsecured bond, and 14% were released on personal recognizance.

Among those blacks who were held, the average length of detention was 5 days shorter than for white defendants (56 days vs. 61 days, respectively) and 10 days shorter than for other minority defendants (66 days).

**Ethnicity.** Overall, 11% of the interviewed defendants identified themselves as ethnically Hispanic.

In 1984 nearly 63% of Hispanic defendants were detained for 2 days or more before trial. This rate (the highest among all the defendant characteristics tested) is over twice as high as the detention rate for non-Hispanics (27%). The high rate of detention among Hispanics probably reflects the fact that 69% of defendants in immigration offenses are detained (table 2.1) and that provisions of the Bail Reform Act of 1984 specifically permit the detention of defendants charged with immigration offenses pending deportation or transfer to the INS.

**Age.** In 1984 only 4% of interviewed Federal criminal defendants were 20 years old or younger. These younger defendants were more frequently released on their own recognizance than older defendants (21% vs. 16%, respectively). Among the youngest in this group (those age 16-18), however, the rate of detention for at least 2 days was significantly higher than for other age groups: Forty-five percent of all those age 16-18 were detained, compared to 31% of all other groups.

At the other end of the spectrum, defendants over 40 were less frequently detained than any other age group (23% vs. 34%, respectively). However, defendants over 40 who were detained were held an average of 63 days—5 days longer than the average for all other detainees.

**Education.** The majority of defendants interviewed had either a high school education (34%) or less (36%), while only 9% of all defendants had completed college. College graduates were released at a significantly higher rate than defendants with less education. For example, 90% of the college graduates were released before trial, and only 19% were detained for 2 days or more. By contrast, 73% of defendants with less than a high school education were released before trial, and 38% were detained for 2 days or more.

**Marital and employment status.** In 1984, 30% of defendants described themselves as "never married," 24% as "separated or divorced," and 41%

as "married." Married defendants were somewhat more likely to be released (83%) than defendants who were divorced or separated (78%) or single (74%). The higher rate of release may be attributable to the perception that married defendants have more ties to the community and are, therefore, less likely to flee than single defendants.

Employment status may also be regarded as indicative of community ties that would prevent flight. In 1984 unemployed defendants were detained nearly twice as often as those who were employed at the time of their arrest (43% vs. 23%, respectively). Similarly, the average length of detention for unemployed defendants was 21% longer than for defendants with jobs (64 days vs. 53 days, respectively).

**Income.** Forty-six percent of interviewed defendants reported no income in the year before arrest; another 18% earned less than \$10,000; 20% earned between \$10,000 and \$20,000; and only 16% had an annual income over \$20,000. Income was strongly linked with pretrial release or detention. Forty-two percent of those reporting no income were detained for 2 days or more before trial, compared to 16% of those defendants with annual incomes over \$20,000. Defendants without income were detained a larger number of days than those with income (65 days for those with no income vs. 52 days on average for those with income).

**Prior criminal record.** Interview records on 42% of interviewed defendants showed one or more felony convictions; 26% had at least one prior misdemeanor conviction; and 32% had no criminal record. Defendants with prior felony convictions were most likely to be detained at least 2 days (47%) and least likely to be released on personal recognizance (10%) or unsecured bond (36%). Defendants with no criminal record or misdemeanor convictions only were held an average of 55 and 54 days, respectively, while defendants with prior felony convictions were detained an average of 65 days.

**Drug use.** In 1984, 81% of interviewed defendants had no known history of drug abuse. Defendants with a history of drug abuse had a lower probability of pretrial release than other defendants (66% vs. 81%, respectively). In addition, defendants with a history of drug abuse were detained, on average, 7 days longer than defendants with no known drug problems.

#### Pretrial release data

**Data source:** The data presented on the next four pages are derived from interviews conducted by Pretrial Services Agencies (PSA) in 13 Federal districts. In the period covered by this compendium, Congress had established experimental Pretrial Services Agencies in ten Federal districts (southern New York, northern Georgia, northern Texas, northern Illinois, central California, eastern New York, eastern Pennsylvania, Maryland, eastern Michigan, and western Missouri); three additional Federal districts (northern Ohio, western Kentucky, and eastern Arkansas) had voluntarily established pretrial services programs.

These initial PSA agencies were created under title II of the Speedy Trial Act of 1974 (18 U.S.C. 3152-56). By the end of 1984, all 96 Federal districts had begun similar programs; however, due to the recency of these agencies, the following data describe the pretrial release and demographic characteristics of 6,187 defendants interviewed during 1984 in the original 13 PSA districts only.

**Bail Reform Act of 1984:** The Bail Reform Act of 1984 became effective during the final quarter of the period covered by this compendium (October 17, 1984). Therefore, the majority of defendants covered by the tables in this chapter (82%) were released or detained under the provisions of the Bail Reform Act of 1966, and the remainder (18%) were released or detained under the Bail Reform Act of 1984.<sup>7</sup>

<sup>7</sup>These percentages are based on a total of 6,132 defendants for whom pretrial release status and date of release or detention were known. Excluded are 54 defendants for whom release status was unknown and one defendant for whom date of release or detention was unknown.

Note: Data describe defendants interviewed in 13 Pretrial Service Agency (PSA) districts in 1984. The sum of the defendants released and detained exceeds 100% because some defendants who were initially detained eventually raised bail or had the conditions of their bail changed by rehearing or appeal. Total also includes 90 defendants for whom release status data were unavailable.

<sup>a</sup>Includes deposit bond, surety bond, and

collateral bond.

<sup>b</sup>Initially held two or more days.

<sup>c</sup>May include some non-violent offenses.

<sup>d</sup>Excluding transportation of stolen property.

<sup>e</sup>Excluding fraudulent property offenses;

including destruction of property, trespass.

<sup>f</sup>Predominantly prosecution under the Racketeer Influenced and Corrupt Organization Act.

Note: Data describe defendants in 13 PSA districts in cases disposed in 1984. A defendant with more than one type of violation appears in more than 1 column. A defendant with more than one of the same type of violation appears only once in that column. Therefore, sum of individual violations exceeds the total. Not all violations resulted in revocation.

<sup>a</sup>Includes 23 defendants with unknown violation records.

<sup>b</sup>Excludes 840 defendants who were released but whose records did not contain sufficient information to determine type of release or violation behavior.

See data notes 1 & 5.

# Chapter 3: Adjudication

Federal criminal cases may result in conviction of the defendant following either a plea or trial, acquittal of the defendant after trial, or dismissal of the case. Unless otherwise noted, data describe cases in Federal court and do not include matters disposed by U.S. Magistrates.

#### Defendants in cases terminated (table 3.1)

**Number of defendants convicted.** Cases were terminated against 48,529 defendants in 1984 (table 3.1). Of these, 39,065 were convicted, 1,640 were acquitted after trial, and 7,824 had cases against them dismissed. Of those defendants who were convicted, 33,777 pleaded guilty, 4,815 were convicted at trial, and 473 pleaded nolo contendere.<sup>1</sup>

**Percent of defendants convicted.** Overall, 80% of all defendants in cases terminated in 1984 were convicted. Of these, 86% pleaded guilty, 1% pleaded nolo contendere, 10% were convicted by jury, and 3% were convicted by nonjury trial. Of the 20% of defendants who were not convicted, 83% had their cases dismissed, 13% were acquitted by a jury, and 4% were acquitted in non-jury proceedings.

Defendants charged with fraudulent property offenses were convicted at the highest rate (84%). Other offenses with higher-than-average rates of conviction included violent offenses (83%), non-fraudulent property offenses (82%), and drug offenses (81%). Defendants charged with non-regulatory public-order offenses had the lowest probability of conviction (78%).

The average rate of conviction for defendants involved in matters referred to U.S. Magistrates (64%) was 16 percentage points lower than the average rate of conviction for defendants in cases terminated by the district courts (80%) (table 3.6).

Ninety-three percent of all defendants charged with immigration offenses, however, who appeared before a U.S. Magistrate were convicted.

**Trial vs. guilty pleas.** Overall, 86% of all defendants convicted in 1984 pleaded guilty (table 3.1). Defendants charged with drug offenses, violent crimes, and regulatory offenses pleaded guilty less often than average (81%, 81%, and 80%, respectively).

#### Case-processing time (table 3.2)

Title I of the Speedy Trial Act of 1974, as amended, stipulates time requirements for processing criminal cases in Federal courts. Except for certain listed exclusions, indictment must occur within 30 days of arrest; defendants are guaranteed at least 30 days to prepare for trial; and the Government must be ready for trial within 70 days. The Speedy Trial Act does not specify a time interval from trial to sentencing, and the time limits set by the act exclude several enumerated periods of pre-trial procedure such as time spent awaiting ruling on motions.<sup>2</sup>

Overall, defendants in cases terminated in 1984 had their cases processed in an average of 7.9 months when cases were dismissed, 6.2 months when cases went to trial, and 3.9 months when convictions were by plea (table 3.2). Defendants in drug offense cases had the longest processing times for dismissals (12.3 months) and guilty pleas (5.9 months). Defendants in non-regulatory public-order offenses were processed more rapidly than any other, whether convicted by plea (2.6 months) or dismissed (6.4 months). Among those defendants whose cases went to trial, those charged with non-fraudulent property offenses were most swiftly processed (5.2 months), and defendants in fraudulent property offense cases had the longest processing time (6.9 months).

#### Characteristics of convicted offenders (table 3.3)

Data on offender characteristics are obtained from various sources, including presentence investigations and pretrial interview records, which are available only for a subset of offenders. (See Methodology.)

**Sex.** Across all offense categories, 83% of all offenders convicted in 1984 were male. The proportion of male offenders to female offenders varied, however, by offense type: 93% of the convicted violent offenders, 71% of those convicted of fraudulent property offenses, and 79% of those convicted of other property offenses were men.

**Race.** Overall, 71% of convicted offenders were described as white, 26% as black, and 3% as other, such as American Indian, Alaskan Native, Asian or Pacific Islander. Although the majority of convicted defendants were white, the percent varied by offense category: regulatory offenses, 88%; other public-order offenses, 81%; drug offenses, 80%; violent crimes, 53%; and non-fraudulent property crimes, 59%. Although nonblack minority offenders were only 3% of convicted offenders, they represented 13% of offenders convicted of a violent crime.

**Age.** The largest group of convicted offenders (37%) was between 21 and 30 years of age. Thirty-three percent of offenders were 31-40 years of age, and 25% were over 40.

Persons convicted of regulatory offenses were substantially older than other offenders. Thirty-eight percent of convicted regulatory offenders were over 40. Violent offenders were disproportionately young; 56% of them were 30 or younger.

**Education.** Forty percent of convicted offenders had less than a high school education. Another 33% had completed high school, 19% had some college, and only 8% were college graduates.

<sup>1</sup>A plea of nolo contendere does not concede guilt; therefore, it cannot be used in a civil action as an admission. Fed. R. Crim. P. 11 (e) (6).

<sup>2</sup>18 U.S.C. 3161 et seq.

Almost half of offenders convicted of violent offenses (50%), non-fraudulent property offenses (45%), drug offenses (42%), and non-regulatory public-order offenses (44%) had less than a high school education. Offenders convicted of fraudulent property crimes and regulatory offenses were better educated than other categories of offenders. About a third of each group had attended some college.

**Marital status.** Overall, 44% of convicted offenders were married, 27% had never married, 23% were divorced, and 5% had common law marriages.

**Employment.** Overall, 44% of convicted offenders were unemployed at the time of arrest. An even higher percent of violent offenders (72%) were unemployed at the time of arrest. The highest employment rate was found among persons convicted of regulatory offenses, where the offenders' employment might be involved in the offense.

**Income.** In view of the high unemployment rates, it is not surprising that 46% of convicted offenders had no annual income. Among those reporting some income, however, 44% earned less than \$10,000 in the year before arrest, 34% earned \$10,000-\$20,000, and 22% earned in excess of \$20,000. Earnings also varied by offense category. Among violent offenders who reported some income, 64% earned less than \$10,000 in the year before their arrest; in contrast, among offenders convicted of regulatory offenses who reported some earnings, 36% earned less than \$10,000, and 30% earned over \$20,000.

**Prior record.** Forty-eight percent of convicted offenders had been convicted of at least one prior State or Federal felony offense. Another 29% had been convicted of misdemeanors only. For about a quarter of the offenders (23%), the present conviction was the first.

Those convicted of violent and non-regulatory public-order offenses had more serious criminal records

than other offenders: 64% of violent offenders and 54% of those convicted of non-regulatory public-order offenses had previously been convicted of at least one felony offense.

**Drug use.** Twenty-one percent of convicted offenders had known histories of drug abuse. The history of drug abuse varied by offense category: Violent and drug offenders were more likely to have drug histories (35% and 33%, respectively) than offenders convicted of regulatory offenses (11%), fraudulent property crimes (13%), or non-regulatory public-order offenses (16%).

#### Trends (table 3.4)

**Defendants in terminated cases.** The number of defendants in criminal cases terminated in the 12-month periods ending June 30, 1975 through 1984, increased from the 1975 level (49,212 cases) to a peak in 1977 (53,188 cases). They reached the lowest level in 1980 (36,560 cases) and increased steadily until 1984 (44,501 cases) (table 3.4).

**Percent of defendants convicted.** Seventy-six percent of all defendants were convicted in 1975, and 81% were convicted in 1984. Convictions varied between 76% and 82% during this period.

#### Number of offenders convicted (table 3.5)

The total number of offenders convicted decreased about 4% between 1975 and 1984 (table 3.5). During the 10-year period, convictions peaked in 1977 (41,468 convictions) and declined steadily from 1977 through 1980 (28,598 convictions). Since 1980, convictions have increased at an average rate of 6% per year for a total increase of 26% over the 4-year period. This pattern is similar to the fluctuation in the total number of criminal cases terminated during this period.

The percentage of offenders convicted of different offenses varied during the 10-year period. Drug offenders represented 22% of all con-

victions in 1975, 15% in 1979, and 21% in 1984. The percent of all convicted offenders who were convicted of non-regulatory public-order offenses increased from 23% in 1975 to 30% in 1984. In contrast, offenders convicted of violent offenses dropped from 8% of all convictions in 1976 to 5% in 1984.

#### Use of trials (table 3.4)

Sixty-five percent of all defendants pleaded guilty to at least one charge in 1975. By 1984, guilty pleas had risen to 71%. The percent of cases terminated by trial was 14% in both 1975 and 1984 and varied 3% or less in the intervening years. Cases against defendants who neither pleaded guilty nor went to trial were dismissed (21% in 1975 and 16% in 1984).

#### Matters concluded by U.S. Magistrates (table 3.6)

An additional 12,021 persons were brought before U.S. Magistrates for resolution of criminal matters that were not filed as cases in a U.S. district court (table 3.6). Thirty-eight percent of these matters involved immigration law violations. Another 39% were accused of other public-order offenses.

Overall, 64% of these persons were convicted. Among those charged with immigration offenses, the conviction rate was 93%. Persons charged with violent offenses and drug offenses were acquitted over 70% of the time.

#### Time trend data

Time trend data in tables 3.4 and 3.5 describe the number of defendants in cases terminated during the 12-month period preceding June 30 in each calendar year indicated. For this reason, the totals shown for 1984 are very similar, but not identical, to those shown for 1984 in table 3.1, which relies on calendar year data drawn from the Federal Justice database.

# Chapter 4: Sentencing

---

---

Depending on the offense, convicted offenders may be sentenced to incarceration, probation, a split sentence (imprisonment followed by a period of probation), or a fine. The court's sentencing decision is influenced by a number of factors including charge seriousness, the defendant's prior record, other personal characteristics of the defendant such as age or sex, and any plea-bargaining agreements that may have been made. Plea bargaining may reduce the defendant's sentence by reducing the seriousness of the offense charged, reducing the number of counts in the indictment against the defendant, or negotiating a lesser sentence for a given charge. Except where otherwise noted, tables in this chapter are based on the most serious offense originally charged, regardless of any changes which may have taken place during the adjudication process.

#### Offenders convicted and sentences imposed (tables 4.1, 4.2)

Eighty percent of all defendants in cases terminated in 1984 were convicted (see chapter 3). Of these, 33% were sentenced to incarceration only, 39% were sentenced to probation only, 16% were given split sentences—both incarceration and probation, and 12% were fined (table 4.1). (In most tables, the convicted offenders who received split sentences are included in both the probation and the incarceration data.)

Overall, 49% of convicted offenders were sentenced to incarceration, either alone or accompanied by probation. Convicted offenders charged with violent and drug offenses were most likely to be incarcerated (83% and 72%, respectively). Offenders with regulatory and other public-order offense charges were least likely to be incarcerated (30% and 37%, respectively). Convicted offenders charged with fraudulent property offenses, other property offenses, and regulatory offenses were most likely to be sentenced to some term or probation (79%, 65%, and 62%, respectively), either alone or as part of a split sentence.

Thirty percent of all convicted offenders charged with non-regulatory public-order offenses were fined, as were 20% of convicted offenders charged with regulatory offenses. Less than 2% of convicted offenders charged with violent crimes, drug offenses, or fraudulent property crimes were fined.

#### Relationship between sentence and method of case disposition (table 4.3)

**Likelihood of incarceration.** About two-thirds of all defendants who did not plead guilty were not convicted (table 4.3). Those who were convicted at trial, however, received more severe sentences than defendants who pleaded guilty. Overall, 77% of offenders convicted at trial were incarcerated (with either a prison sentence alone or a split sentence), compared to 45% of offenders convicted by plea. In most offense categories, offenders who pleaded guilty were about twice as likely to avoid incarceration as those convicted at trial. Drug offenders who pleaded guilty were four times as likely to avoid incarceration as those who went to trial.

**Length of sentence.** Offenders sentenced to incarceration as a result of a guilty plea received sentences averaging half as long as offenders convicted at trial. Offenders convicted at trial received sentences averaging 78.2 months; the average sentence for offenders convicted by plea was 40.0 months.

Although prison sentences after trial were longer for all offense categories, differences were most pronounced for those offenders charged with drug offenses (85 months vs. 46 months), regulatory offenses (59 months vs. 25 months), and other public-order offenses (51 months vs. 20 months).

#### Trends: Offenders sentenced to incarceration (tables 4.4 and 4.5)

Between 1975 and 1984 the number of offenders sentenced to incarceration (with either prison alone or

a split sentence) followed the pattern of total convictions, peaking at 19,613 in 1977 and dipping to 13,191 in 1980 (table 4.4). The net result of these fluctuations was that the decade began and ended with approximately the same number of offenders sentenced to incarceration (17,301 in 1975 and 17,710 in 1984). The percent of convicted offenders sentenced to incarceration during this time, however, increased both overall (from 46% to 49%) and across most offense categories.

The largest increases were seen for drug offenders (60% in 1975 and 77% in 1984) and persons convicted of regulatory offenses (15% in 1974 and 27% in 1984). By contrast, the percent of convicted offenders sentenced to incarceration for non-regulatory public-order offenses decreased from 44% in 1975 to 36% in 1984.

#### Offenders sentenced to probation (table 4.6)

Between 1975 and 1984, the number of convicted offenders sentenced only to probation declined from 48% to 38%. The decline was most notable for drug offenders (39% in 1975 and 21% in 1984) and persons charged with non-regulatory public-order offenses (46% in 1975 and 32% in 1984). The percent of convicted offenders charged with regulatory offenses who were sentenced to probation only remained relatively stable (56% in 1975 and 54% in 1984).

#### Characteristics of offenders sentenced to incarceration (table 4.7)

In general, offenders sentenced to incarceration in the Federal system resembled the total defendant population. The majority were white (73%) and male (90%). Women were substantially less likely to be confined than men who were charged with similar offenses. In all, 62% of men and 33% of women were sentenced to be incarcerated. The offenders' race and ethnicity were not generally related to incarceration decisions.

Offenders with a history of either drug abuse or convictions of prior offenses were substantially more likely to be sentenced to correctional institutions than were drug-free or first offenders.

A sentence of incarceration was more likely to be given to offenders who were unemployed at the time of arrest or reported no income in the preceding year. (Many are in both groups.)

The small number of Federal offenders under the age of 21 was less likely to be incarcerated than older persons convicted of similar offenses.

#### Average prison sentence length (tables 4.2, 4.3 and 4.8)

The average prison sentence term for all offenders convicted in 1984 was 47 months. Convicted offenders charged with violent crimes received the longest average prison sentences (130 months). Offenders convicted on other charges received average sentences that varied between 37 months (regulatory offenses) and 25 months (other public-order offenses).

#### Relationship of prison term to defendant characteristics (table 4.8)

For most offenses, younger persons were sentenced to shorter terms than older offenders. Similarly, women received sentences that were from 21% to 49% shorter than those imposed on men incarcerated for similar offense types.

The relation of sentence time to drug abuse was more complex. Offenders with a history of drug abuse received longer sentences than those with no known drug involvement when charged with violent, fraudulent property, other property, and non-regulatory public-order offenses (a difference of 10%, 17%, 19%, and 10%, respectively). Among offenders incarcerated for drug charges, however, sentences were 28% longer for offenders who did not

use drugs. This may reflect the fact that non-drug-using drug offenders may be involved in importation and distribution crimes for which more severe sentences are provided by statute.

Convicted offenders with a prior felony conviction who were charged with violent or property offenses received sentences averaging 32%-40% longer than first offenders convicted on similar charges. Regulatory offenders with prior felony convictions received sentences three times as long as those imposed on first offenders. In contrast, the offenders' prior record had no effect on average sentences for non-regulatory public-order offenses.

# Chapter 5: Corrections

## Recidivism

Whether Federal offenders are sentenced to prison or probation, most of them serve a period of time in the community under the supervision of a corrections officer. In 1984 Federal prisoners were eligible to be released to parole supervision after completing a third or less of their prison terms. Offenders who remain in prison until their mandatory release date may also be subject to a period of post-release community supervision.

In general, offenders released under probation or parole supervision are required to report for further counseling sessions, remain in a specified area, receive drug or alcohol treatment, or fulfill other conditions determined by the judge or supervision agency. The violation of these special conditions or the commission of a new offense may result in reincarceration or in the imposition of additional restrictions.

The rate at which offenders successfully complete (or violate) a period of parole or probation supervision depends upon the length of the supervision term (which may reflect characteristics of the offense or offender), the stringency of supervision conditions, and the strictness of supervisory review. Statistics on violation rates, therefore, reflect a combination of the behavior of the offender, the supervision system, and the time under supervision.

### Probation outcomes (tables 5.1 and 5.2)

Eighty percent of all offenders sentenced to probation completed the full term of supervision with no violation; 8% had supervision revoked for a new crime and 12% for a technical violation (table 5.1).

**Violations by offense.** Probation is infrequently used for violent offenses (see chapter 4). Those persons convicted of violent offenses who were granted probation were least

likely to complete probation successfully (68%) and most likely to have probation revoked for a new crime (12%) or a technical violation (19%).

Persons convicted of non-fraudulent property offenses were also more likely than average to have probation revoked for a new crime (11%) or a technical violation (16%).

Specific offense categories with high revocation rates included robbery (46%), burglary (45%), forgery (37%), and weapons offenses (33%).

**Offender characteristics.** Only 4% of first offenders had probation revoked for committing a new offense (table 5.2), compared to 19% of those who had previously served prison terms of a year or more and 22% of those incarcerated as a juvenile. Among defendants whose drug history is known, drug abusers were more than three times as likely to have probation revoked for a technical violation as defendants believed not to be drug abusers. In many of these cases, the violation involved a condition requiring some form of drug treatment or testing.

Information on prior histories of drug abuse is obtained during Pre-trial Services Agency (PSA) interviews and is not available for most offenders. Defendants who are indicted but not arrested and those who obtain release before a PSA interview can take place are not included in these data, which are, therefore, not representative of the total population of offenders sentenced to probation.

### Parole outcomes (tables 5.3 and 5.4)

Slightly over half (54%) of all offenders released on parole completed parole time with no violation; 24% had parole revoked for a new crime and 22% for a technical violation (table 5.3).

The violation rate for parolees in each major offense category was about twice as high as the corresponding rate for offenders released

on probation. The higher parole violation rate may reflect the fact that parolees were initially sentenced to prison—a determination that probably reflected the seriousness of the offenses and the offenders' prior record (see chapter 4).

**Violations by offense.** Among offense categories, offenders convicted of violent offenses were least likely to complete parole with no violation (33%) and most likely to have parole revoked for a new crime (36%) or a technical violation (31%). Persons convicted of non-fraudulent property offenses were also more likely than average to violate parole (57%) by either a new crime (30%) or a technical violation (27%).

Persons convicted of drug crimes had lower-than-average rates of parole violations—37% overall, 17% for new crimes, and 20% for technical violations. Paroled drug offenders were 40% less likely to have parole revoked for new crimes than all other parolees; revocations for technical violations were 16% lower.

**Offender characteristics.** In contrast to persons convicted of drug offenses, about three-fourths (74%) of offenders known to have a history of drug abuse violated parole terms (table 5.4), compared to 35% of parolees with no known drug use. Seventy percent of the violations by drug users, however, were technical violations of release conditions rather than new offenses. Because drug testing and treatment are often included in the parole conditions of known drug users, it may be that many of these violations were drug related.

Parolees with drug histories appear slightly more likely to have parole revoked for committing new crimes than other parolees (22% vs. 19%, respectively), but this difference was only slightly larger than the difference one would expect due to random chance alone.

The rate of parole violations also varied according to the offenders' prior criminal records. Twenty-one percent of offenders with no prior convictions had parole revoked; offenders with juvenile delinquency records or records of a prior conviction with more than a 1-year sentence had parole revoked in 65% and 62% of cases, respectively.

More specifically, a tenth of parolees with no prior recorded sentences had parole revoked for committing a new crime, compared to new-offense parole revocations for a third of the parolees with prior prison sentences of more than a year.

#### **Comparison of parole and probation populations (tables 5.2 and 5.4)**

The violation rate for every major group of parolees is substantially higher than the corresponding rate for offenders sentenced to probation. This reflects substantial differences between the types of offenders in the two populations.

Overall, 58% of interviewed offenders completing terms of probation were identified as first offenders; only 23% of parolees showed no previous convictions. Similarly, 15% of interviewed offenders completing probation were identified as drug abusers; 46% of parolees terminating supervision in the same year were identified as drug abusers. These findings reflect the fact that parolees, on the bases of their prior record or offense characteristics, were initially found unsuitable for probation and sentenced to prison (see chapter 4).

#### **Violation rate (table 5.5)**

The likelihood that an offender will be cited for a violation during the first year of supervision varies according to the type of release (table 5.5). Twenty-one percent of persons on mandatory release (for example, prisoners not previously found qualified for parole release) violated terms during the first year; this

compared to 14% of parolees and 6% of probationers. Among these, 8% of offenders on mandatory release had violations for major offenses during the 1-year period, compared to 5% of parolees and 1% of probationers. For every class of offender, technical violations outnumbered new crimes by margins ranging from 20% (for offenders supervised after mandatory release) to 160% (for offenders serving sentences of probation imposed by a U.S. Magistrate).

Because the likelihood of a violation increases as the period of supervision increases, the annual violation rate, which more clearly reflects differences among offender groups, will generally be lower than the overall violation rate for similar groups during the total period of supervision.

#### **Time served in prison (table 5.6)**

On average, offenders serving prison sentences of more than 1 year were released after having served slightly under 2.5 years or 59% of the sentence imposed by the judge.<sup>1</sup> Persons convicted of violent offenses served more than 4.5 years, with those convicted of homicide or kidnapping serving more than 6 years before being released.

Prisoners convicted of larceny and certain public-order offenses served terms of approximately 1.5 years. The average for most other classes of offenses was between 2 and 3 years.

<sup>1</sup>Sentencing and Time Served: Federal Offenses and Offenders, Bureau of Justice Statistics Special Report, NCJ-101043, June 1987.

### **Factors affecting time served**

In 1984 Federal law established a maximum sentence for each offense. For example, 18 U.S.C. 1951 specifies that a person convicted of commercial robbery shall be fined not more than \$10,000 or imprisoned for not more than 20 years or both. The sentencing judge could, however, impose any penalty less than these limits.

The usual form of a Federal prison sentence is a maximum term of years. The minimum term of imprisonment may be set either implicitly or explicitly. Unless otherwise provided by statute or judicial order, offenders serving definite prison terms of more than one year are eligible for parole after a third of their maximum term or, in the case of a life sentence or sentence over 30 years, after serving 10 years. Thus, a 10-year maximum sentence implies parole eligibility after serving 3 years and 4 months. (The sentencing judge may set a lower minimum.)

Since 1976, offenders sentenced to terms of 1 year or less have been ineligible for parole. Offenders sentenced to between 6 and 12 months, however, are eligible to have "good-time" deducted from the sentence. For sentences of less than 6 months, time served equals time sentenced.

Offenders sentenced to terms of more than 1 year prior to the effective dates of the Comprehensive Crime Control Act of 1984 are eligible for parole. Decisions on early release are made by the U.S. Parole Commission following guidelines that indicate ranges of time to be served. The guidelines are based on criteria that rank the seriousness of the criminal event and the risk posed by the offender as measured by the "salient factor score."

The "salient factor score" predicts an offender's "parole prognosis" on the basis of prior convictions; previous commitments; age (current and at the time of conviction and commitment); time elapsed since the last commitment; probation, parole, commitment, or escape status; and drug dependence.

Prisoners who observe all the rules of the prison may have between 16% and 33% of the time actually served deducted from their maximum term, depending on the length of the sentence (18 U.S.C. 4161). An additional 10% may also be deducted for participation in prison industries programs (18 U.S.C. 4162). Accordingly, a prisoner who earned full credit on a 10-year term would complete his or her maximum term and be released in less than 5 years and 9 months—regardless of any intervening action by the Parole Commission.

# Methodology

Except where otherwise noted, the source of data for all tables in this compendium is the BJS Federal justice database maintained by Abt Associates Inc. The database is presently constructed from source files provided by the Executive Office for U.S. Attorneys, the Administrative Office of the U.S. Courts, the Pretrial Services Agency (PSA), the U.S. Bureau of Prisons, and the U.S. Parole Commission. Federal law prohibits the use of these files for any purpose other than research.

Records in the Federal justice database are matched according to names, other personal identifiers, dates of court appearances, types of offenses, and other relevant information contained in the files. Using the matched data files, it is possible to combine information about all stages of the processing of a criminal matter or case, from the prosecutor's decision of whether to file a criminal case, through adjudication, and, if the defendant is convicted, through probation or prison and parole.

The offense classification procedure used in this compendium is based on the classification system followed by the Administrative Office of the U.S. Courts. Specific offenses in the Administrative Office classification are combined to form the BJS categories shown in the compendium tables.\* For data sources that include United States Code citations, but do not include the Administrative Office offense classifications, United States Code titles and sections are translated into the Administrative Office classification system and then aggregated into the offense categories used in the tables. Where more than one offense is charged or adjudicated, the most serious offense (the one that may result in the most severe sentence) is used in classification. The offense description may change

as the criminal justice process proceeds. Tables indicate whether charged or adjudicated offenses are used.

All offense categories are defined in the glossary, with citations to the United States Code sections included.

Unless otherwise noted, data describe the calendar year indicated.

The tables in the compendium are constructed to permit the user to make valid comparisons of numbers within each table and to compare percentage rates across tables. Because some records cannot be linked, however, the total number of subjects in compendium tables that are based on linked records is generally less than the total number of persons identified in any individual source file. Accordingly, comparisons of absolute numbers across two or more tables, or between tables in this volume and other data sources, should be closely examined to assure that the universes described by the tables are consistent.

Because each compendium table is based on specific source files, the size of the universe may vary for different data items depending on the availability of data in the source file. Many items of social and demographic information, for example, come from PSA interviews and are available only where arrested defendants were interviewed and where specific items of information were collected and recorded. (This particularly affects ethnicity and occupational information.) Similarly, data on prosecutorial decisions prior to court filing are only available for cases investigated by U.S. Attorneys, not for cases handled by the Criminal Division of the U.S. Department of Justice, and not for matters which the U.S. Attorneys immediately decline to investigate. Criminal Division cases enter the database, however, once they are filed.

\*These categories correspond to the BJS crime definitions and, to the extent possible, are organized and presented consistent with BJS publications on State criminal justice systems.

# Data notes

- 1) About 10,000 defendants were interviewed by Pretrial Services Agencies in 1984. Because only people with initial bail hearing, pre-bail interview and post bail interview were chosen, only 6,187 (of the 10,000) were selected for inclusion in the compendium tables referring to pretrial interview data.
- 2) In Chapter 1 tables 1.1, 1.2, 1.3, 1.4, and 1.5 and in Chapter 3 table 3.6 were created from the docket and reporting data files. Only records which showed a matter received, terminated, or filed as a case in 1984 were selected.
- 3) Offenses in the docket and reporting data files are classified by the Title and Section of the United States Code for the most serious offense charged. For tables in this compendium, these citations were translated into the corresponding 4-digit offense codes used by the Administrative Office of the United States Courts. These 4-digit codes were then aggregated into the categories shown in the tables. U.S. Code citations often do not permit detailed classification of drug offenses by type of action involved. A person charged with conspiracy is classified under the substantive offense alleged. (For example, conspiracy to defraud is classified as a fraud.)
- 4) In Chapter 2 tables 2.1, 2.2, 2.3, 2.4, and 2.7 were created from the Pretrial Services Agency data files. Only records with an interview date in 1984 were selected. Some defendants were arrested in 1984 but not interviewed; their PSA records were completed from information in other files. These non-interviewed defendants are excluded from the tables.
- 5) Tables 2.5 and 2.6 in Chapter 2 were created by matching the Administrative Office master data files with the Pretrial Services Agency data files. Only linked records with cases terminated in 1984 were selected.
- 6) Tables 3.1, 3.2, and 3.6 in Chapter 3 and tables 4.1, 4.2, and 4.3 in Chapter 4 were derived from the Administrative Office master data files. Only records with cases terminated in 1984 were selected.
- 7) Table 3.3 in Chapter 3 and Tables 4.7 and 4.8 in Chapter 4 were created by matching the Administrative Office master data files with the Pretrial Services Agency data files. Records were included in the table if the relevant information was available from either source. Some items are available only from PSA files. The number of records for these items is substantially lower than those for items which might have come from either file. Moreover, many PSA records omit data on certain items, such as ethnicity. Tables indicate the number of records on which relevant data were available.
- 8) In Chapter 5 tables 5.1-5.5 were created from the probation and parole data files. Only records with cases terminated in 1984 and a supervision term greater than zero were selected.
- 9) In Chapter 5 table 5.6 was created from the parole hearing data files. Only records of adult prisoners with release date January-December 1984 were selected. Only prisoners with sentences of more than a year are eligible for parole. Those with shorter sentences are excluded from the table. The offense classifications in Chapter 5 table 5.6 were based on the most serious offense at conviction as classified by the U.S. Parole Commission. Classifications in these data are similar to those used in other chapters of the compendium, except that fraudulent property offenses cannot be distinguished from other property offenses category. These two categories are therefore combined.
- 10) Figure 2 refers to 77,768 suspects investigated by U.S. Attorneys in matters terminated in 1984 (table 1.2). Seventy-two percent of these suspects (56,079) were prosecuted either in U.S. district court (44,058 = 57%) or before a U.S. Magistrate (12,021 = 15%).
- Since conviction data refer to a different cohort of defendants (those whose court cases were terminated), statistical estimates are used for determining the length of the remaining horizontal bars in the figure. Judges convicted 80.5% of defendants in cases terminated in 1984 ( $44,058 \times 80.5\% = 35,466$ ) (table 3.1). Magistrates convicted 64.4% of defendants ( $12,021 \times 64.4\% = 7,747$ ) (table 3.6). The combined conviction rate is 56% of suspects investigated ( $(35,466 + 7,747) / 77,768$ ).
- Of offenders convicted in U.S. district court, 49.0% were sentenced to incarceration ( $35,466 \times 49.0\% = 17,363$ ), and 38.5% were sentenced to probation without incarceration ( $35,466 \times 38.5\% = 13,654$ ). These are, respectively, 22% ( $17,363 / 77,768$ ) and 18% ( $13,654 / 77,768$ ) of the suspects investigated. Sentences imposed after Magistrate convictions are not included, but Magistrates normally impose fines rather than sentences of probation or incarceration.

Note: Data describe detention or release at any time following the initial bail hearing. The sum of the defendants released and detained exceeds 100% because some defendants who were initially detained eventually raised bail or had the conditions of their bail changed by rehearing or appeal.

<sup>a</sup>Data describe number of defendants in 13 PSA districts in 1984.  
<sup>b</sup>Total also includes 90 defendants for whom release status data were unavailable.  
<sup>c</sup>Includes deposit bond, surety bond, and collateral bond.  
<sup>d</sup>Initially held two or more days.  
See Text Table 2.1.

Note: A defendant with more than one type of violation appears in more than one column. A defendant with more than one of the same type of violation appears only once in that column. Therefore the sum of individual types of violations may exceed the total. Not all violations resulted in revocation.

Data describe defendants interviewed in 13 PSA districts in cases disposed in 1984. Excludes 840 defendants who were released but whose records did not contain sufficient information to determine type of release or violation behavior. See Text Table 2.5.

\*No cases of this type occurred in the data. Data describe 2,206 defendants interviewed in 13 Pretrial Services Agency (PSA) districts in 1984 and given financial conditions for release at initial bail hearings. An additional 39 defendants are excluded due to missing bail amount data. See Text Table 2.3.

# Glossary

This glossary defines each of the terms used in the tables. The definitions specifically describe the criteria used in establishing table classifications.

Definitions of offense categories describe all offenses included in each category. Statutory sections are cited in parentheses at the end of each definition.

**Agriculture violation**—violation of the Federal statutes on agriculture and conservation, for example, violations of the Agricultural Acts, Federal Seed Act, Game Conservation Acts, Insecticide Act, and the Packers and Stockyards Act; also violation of laws concerning plant quarantine and the handling of animals pertaining to research (title 7 U.S.C. except sections on food stamps).

**Antitrust**—violation of Federal antitrust statutes (15 U.S.C. 1, 2, 3, 8, 13(A)-(F), 20, 24, 70I, and 72).

**Arson**—willfully or maliciously setting, or attempting to set, fire to any property within the special maritime and territorial jurisdiction of the United States as defined in 18 U.S.C. 7 (18 U.S.C. 81).

**Assault**—intentionally inflicting or attempting or threatening to inflict bodily injury to anyone within the special maritime and territorial jurisdiction of the United States as defined in 18 U.S.C. 7 or to any Government official, foreign official, official guest, internationally protected person, or any officer or employee of the United States designated in section 1114 of title 18; also certain violations of the Fair Housing Law (18 U.S.C. 111, 112(A)-(C), 113(A)-(F), 114, 351(C)-(E), 372, 1501-2, 1751(E), 1991, 2231(A)(B), and 2233; 21 U.S.C. 461(C), 675(A)(B), and 1041(C); 26 U.S.C. 7212(A)(B); 42 U.S.C. 3610(A), 3611(F), and 3631; 46 U.S.C. 701(6); and 49 U.S.C. 1472(k1) and 1475(J)(k1)).

**Bail**—the sum of money promised as a condition of release, to be paid if a released defendant defaults (18 U.S.C. 3142(c)).

**Possession**—acquiring a controlled substance by misrepresentation or fraud, attempting or conspiring to possess, or simple possession of a controlled substance in schedules I-V (as defined by 21 U.S.C. 812). Also possession of a controlled substance in schedule I or II or a narcotic drug in schedule III or IV on board a vessel of the United States or vessels within custom waters of the United States or by any citizen of the United States on board a vessel. Possessing any punch, die, plate, stone, or any other thing designed to reproduce the label upon any drug or container is an offense under this category. Distributing a small amount of marijuana for no remuneration is treated as simple possession and, therefore, is included in this offense category (21 U.S.C. 843(A3)(A5), 844(A), 846, 955, and 962-63).

**Pretrial diversion**—an agreement to defer (and possibly drop) prosecution conditioned on the defendant's good behavior and/or participation in programs during a stated period.

**Pretrial release**—the release of a defendant from custody, for all or part of the time before or during prosecution. The defendant may be released either on personal recognizance or unsecured bond or on financial conditions. The category includes defendants released within 2 days after arrest and defendants who were initially detained but subsequently released after raising bail or having release conditions changed at a subsequent hearing.

**Property offenses, fraudulent**—property offenses involving the elements of deceit or intentional misrepresentation. Specifically includes embezzlement, fraud (excluding tax fraud), forgery, and counterfeiting.

**Property offenses, non-fraudulent**—violent offenses against property: burglary, larceny, motor vehicle theft, arson, transportation of stolen

property, and other property offenses (destruction of property and trespassing). These offenses are termed "non-fraudulent" only for the purpose of distinguishing them from the category "property offenses, fraudulent," above.

**Public-order, non-regulatory offenses**—offenses concerning weapons; immigration; tax law violations (tax fraud); bribery; perjury; national defense; escape; racketeering and extortion; gambling; liquor; mailing or transporting of obscene materials; traffic; migratory birds; conspiracy, aiding and abetting, and jurisdictional offenses; and "other public-order offenses" (q.v.). These offenses are termed "non-regulatory" only for the purpose of distinguishing them from the category "public-order, regulatory offenses," below.

**Public-order, regulatory offenses**—violations of regulatory laws and regulations in agriculture, antitrust, labor law, food and drug, motor carrier, and other regulatory offenses that are not specifically listed in the category "public-order, non-regulatory offenses" above.

**Q.v.**—refer to the appropriate entry in this glossary for a definition of terms marked "(q.v.)".

**Racketeering and extortion**—using inter-State or foreign commerce or any facility in inter-State or foreign commerce to aid racketeering enterprises such as arson, bribery, gambling, liquor, narcotics, prostitution, and extortionate credit transactions. For officers or employees of the United States, or anyone representing himself or herself as such, obtaining property or money from another, with his or her consent induced by actual or threatened force, violence, blackmail, or unlawful interference with employment or business. Transmitting by inter-State commerce or through the mail any threat to injure the property, the person, or the reputation of the addressee or of another or to kidnap any person with intent to extort (18 U.S.C. 872-74, 875(A-D), 876-77, 892-94, 1951-52, 1954).

1962(A-D), and 1963; 19 U.S.C. 60; 27 U.S.C. 205(C); and 42 U.S.C. 2703(B)).

**Rape**—rape, assault with intent to commit rape, and carnal knowledge of a female under 16 who is not one's wife, within the territorial and special maritime jurisdictions of the United States as defined in 18 U.S.C. 7 (18 U.S.C. 113(A), and 2031-32; and 49 U.S.C. 1472(K1)).

**Regular sentence**—any prison sentence except split sentences, indeterminate sentences, youth sentences, and life imprisonment. Includes mixed sentences (over 6 months incarceration accompanied by probation).

**Remove**—transfer from Federal court (usually to a State court).

**Robbery**—taking anything of value from the person or presence of another by force or by intimidation, within the special maritime and territorial jurisdiction of the United States (18 U.S.C. 7). Also robbery of bank property, U.S. postal property, or personal property of the United States. Also assaulting or putting the life of any person in jeopardy by the use of a dangerous weapon while committing or attempting to commit such robbery (18 U.S.C. 113(B), 1661, 1991, 2111-12, 2113(A)(D)(E), and 2114; and 49 U.S.C. 1472(K1)).

**Sentence**—sanction imposed on a convicted offender. For sentences to incarceration, the maximum time the offender may be held in custody is reported. (See also "Regular sentence," "Split sentence," "Mixed sentence," "Indeterminate sentence," and "Youth sentence.")

**Special maritime and territorial jurisdiction**—areas of Federal jurisdiction outside the jurisdiction of any State, including (1) the high seas, Great Lakes, and connecting waterways; (2) Federal lands; and (3) U.S.-owned aircraft in flight over the high seas (18 U.S.C. 7).

**Split sentence**—a sentence requiring the convicted person to serve a period of confinement of 6 months or

less, followed by a period of probation. Unless otherwise noted, convicted offenders receiving split sentences are included in both the incarceration and probation categories, but are excluded from data on regular incarceration sentences (see "Mixed sentence").

**Stale**—too old to support successful prosecution.

**Surety bond**—an agreement by the defendant as a condition of his or her release that requires a third party (usually a bail bondsman) to promise to pay the full bail amount in the event that the defendant fails to appear.

**Suspect**—a person who is under investigation or interrogation as a likely perpetrator of a specific criminal offense.

**Tax law violations**—tax fraud offenses such as income tax fraud; evading or defeating tax; willful failure to file; fraudulently withholding on exemption certificate or failing to supply information; counterfeiting any stamps with intent to defraud the collection or payment of tax; willful failure to collect or pay tax; putting fraudulent or false statements on tax returns; failure to obey summons to produce any papers concerning taxes; preparers of returns disclosing or using any information for any purpose other than to assist in preparing returns; failing to furnish receipts for employees of tax withheld; failing to furnish information relating to certain trusts, annuity, and bond purchase plans; and not obtaining a license for a business that makes a profit from foreign items. Also included in this offense category are violations of excise and wagering tax laws and any other laws listed below from the Internal Revenue Service title (26 U.S.C. 3402, 4411-12, 4918(E)(H), 4919(B2), 5751(A1)(A2), 5752(A)-(D), 5762(A1)-(A11)(B), 6047(A)-(C), 6051, 6056, 6331, 6420(E2), 6421(F2), 6424(D2), 6427(E2), 6674, 7001, 7121-22, 7201-5, 7206(1)-(4)(5A)(5B), 7207, 7208(1), 7210, 7213(A1)-(A3)(B)-(D), 7215(A), 7216, 7231-32, 7322(2), 7261-62, 7272(A), 7512, 7513(B), 7602-3, and 7604(B); and 50A U.S.C. 243(A)).

**Technical violation**—failure to comply with any of the conditions of pre-trial release, probation, or parole, excluding alleged new criminal activity. May result in revocation of release status.

**Threats against the President**—knowingly and willfully depositing in the mail, at any post office, or by any letter carrier a letter, paper, writing, print, missive, or document containing any threat to take the life of or to inflict bodily harm upon the President, Vice President, or any other officer in order of succession to the Presidency. Knowingly and willfully making such threats in any way to the above-named people (18 U.S.C. 871).

**Traffic offenses**—driving while intoxicated or any moving or parking violations on Federal lands (40 U.S.C. 212 B).

**Trafficking**—importing any controlled substance in schedule I, II, III, IV, or V (as defined by 21 U.S.C. 812). Manufacturing, distributing, selling, or possessing with intent to manufacture, distribute, or sell a controlled substance or a counterfeit substance. Exporting any controlled substance in schedules I-V. Manufacturing or distributing a controlled substance in schedule I or II for purposes of unlawful importation. Making or distributing any punch, die, plate, stone, or any other thing designed to reproduce the label upon any drug or container or removing or obliterating the label or symbol of any drug or container. Obtaining a prescription of a controlled substance in schedule III or IV without a written or oral prescription. Distributing for reasons other than medical a controlled substance in schedule V. Illegally crossing the border if the individual is addicted to or using drugs or has been convicted of any violation of narcotics or marijuana laws (18 U.S.C. 1407; and 21 U.S.C. 825(A)-(D), 829(B)(C), 841(A)(B1A)(B2)-(B4), 842(A4)-(A8), 843(A1)(A2)(A5)(B), 845(A)(B), 846, 952(A)(B), 953(A)(C)(E), 954-55, 957, 959, 960(A1)(B2), 961(2), and 962-63).

**Transportation of stolen property**—transporting, selling, or receiving stolen goods, stolen securities, stolen moneys, stolen cattle, fraudulent State tax stamps, or articles used in counterfeiting if the above articles or goods involve or constitute inter-State or foreign commerce (18 U.S.C. 2314-17).

**Trial conviction**—conviction by judge or jury after trial.

**True bill**—an indictment.

**United States**—the territory occupied by the 50 states, the District of Columbia (q.v.), Guam, Puerto Rico, and the U.S. Virgin Islands.

**U.S. Attorneys**—all United States Attorneys. Prosecutorial data in this compendium come from the Docket and Reporting System of the Executive Office for U.S. Attorneys.

**Unsecured bond**—an agreement by the defendant as a condition of his or her release in which the defendant agrees to pay full bond amount in the event of nonappearance at trial, but is not required to post security as a condition to release.

**Violation (of pretrial release, probation, or parole)**—allegation of a new crime or a technical violation (q.v.) while on pretrial release, probation, or parole.

**Violent offenses**—threatening, attempting, or actually using physical force against a person. Includes murder, negligent manslaughter, assault, robbery, rape, other sex offenses (some of which may be non-violent), kidnaping, and threats against the President. (See specific offenses for citations.)

**Weapons violations**—violations of any of the provisions of sections 922 and 923 of title 18 concerning the manufacturing, importing, possessing, receiving, and licensing of firearms and ammunition. Manufacturing, selling, possessing, or transporting (within any territory or possession of the United States, within Indian country, or within the special maritime and territorial jurisdiction of

the United States) (18 U.S.C. 7) any switchblade knife. Engaging in importing, manufacturing, or dealing in firearms if not registered with the secretary in the Internal Revenue Service District in which the business is conducted or not having paid a special occupational tax. Carrying on the U.S. Capitol grounds or within U.S. Capitol buildings any firearm, dangerous weapon, explosive, or incendiary device (2 U.S.C. 167(D); 15 U.S.C. 1242-43; 18 U.S.C. 922(A)-(M), 923, and 924(A)-(C); 18A U.S.C. 1202(A1)-(A5),(B1)(B5); 26 U.S.C. 5801-2, 5811-12, 5821-22, 5841-44, 5851, 5861(A)-(L), and 5871; 40 U.S.C. 193F(A); and 49 U.S.C. 1472(L1)(L2)).
