The response categories for race/ethnicity changed in 1999 making comparisons of some categories with earlier years problematic.

NOTE: "On school property" was not defined for survey respondents. The term "anywhere" is not used in the YRBS questionnaire. Rather, students are simply asked how many times in the last 12 months they had been in a physical fight. Population sizes from the Digest of Education Statistics, 2003 (NCES 2005–025) for students in grades 9 through 12 are 13,093,000 students in 1993; 13,697,000 in 1995; 14,272,000 in 1997; 14,623,000 in 1999; 15,058,000 in 2001; and 15,577,000 (projected) in 2003.

SOURCE: Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Youth Risk Behavior Surveillance System (YRBSS), "Youth Risk Behavior Survey" (YRBS), selected years 1993-2003.

NOTE: Violent incidents include rape, sexual battery other than rape, physical attack or fight with or without a weapon, threat of physical attack with or without a weapon, and robbery with or without a weapon. Other incidents include possession of a firearm or explosive device, possession of a knife or sharp object, distribution of illegal drugs, possession or use of alcohol or illegal drugs, sexual harassment, or vandalism. Principals were asked to report crimes that took place in school buildings, on school grounds, and on school buses during normal school hours and at without a weapon. Serious violent incidents include rape, sexual battery other than rape, physical attack or fight with a weapon, threat of physical attack with a weapon, and robbery with or school-sponsored events or activities. Population size is 82,000 public schools. Standard errors for number of schools and number of incidents are rounded to the nearest 10. SOURCE: U.S. Department of Education, National Center for Education Statistics, School Survey on Crime and Safety (SSOCS), 1999–2000.

at school can occur when teachers are not present. The data are aggregated from 1998-2002 due to the small number of teachers in each year's sample. On a verage, there were about 4.6 million NOTE: Serious violent crimes include rape, sexual assault, robbery, and aggravated assault. Violent crimes include serious violent crimes and simple assault. Total crimes include violent crimes and theft. "At school" includes inside the school building, on school property, at work site, or while working. For thefts, "while working" is not considered since thefts of teachers' property kept teachers per year over the 5-year period for a total population size of 22,790,000 teachers. The population reported here includes teachers from any sector, part-time teachers, and other instructional and support staff. Standard errors for crime numbers are rounded to the nearest 10.

The response categories for race/ethnicity changed in 1999 making comparisons of some categories with earlier years problematic.

NOTE: "On school property" was not defined for survey respondents. The term "anywhere" is not used in the YRBS questionnaire. Rather, students are simply asked during the past 30 days, on how many days they carried a weapon. Population sizes from the Digest of Education Statistics, 2003 (NCES 2005-025) for students in grades 9 through 12 are 13,093,000 students in 1993; 13,697,000 in 1995; 14,272,000 in 1997; 14,623,000 in 1999; 15,058,000 in 2001; and 15,577,000 (projected) in 2003.

SOURCE: Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Youth Risk Behavior Surveillance System (YRBSS), "Youth Risk Behavior Survey" (YRBS), selected years 1993-2003.

NOTE: In the 1995 and 1999 surveys, "at school" was defined as in the school building, on the school grounds, or on a school bus. In the 2001 and 2003 surveys, "at school" was defined as in the students who reported that they sometimes or most of the time feared being victimized in this way. Fear of attack away from school was not collected in 1995. Population sizes for students ages school building, on school property, on a school bus, or going to and from school. In the 1995 and 1999 surveys, students reported fear of "attack or harm" at school or on the way to and from school during the previous 6 months. In 2001 and 2003, students reported fear of "attack or threat of attack" at school or on the way to and from school during the previous 6 months. Includes 12–18 are 23,601,000 in 1995, 24,614,000 in 1999, 24,315,000 in 2001, and 25,684,000 in 2003.

7												

The response categories for race/ethnicity changed in 1999 making comparisons of some categories with earlier years problematic.

NOTE: "On school property" was not defined for survey respondents. The term "anywhere" is not used in the YRBS questionnaire. Rather students are simply asked during the past 30 days, on how many days did they have at least one drink of alcohol. Population sizes from the Digest of Education Statistics, 2003 (NCES 2005–025) for students in grades 9 through 12 are 13,093,000 students in 1993; 13,697,000 in 1995; 14,272,000 in 1997; 14,623,000 in 1999; 15,058,000 in 2001; and 15,577,000 (projected) in 2003.

SOURCE: Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Youth Risk Behavior Surveillance System (YRBSS), "Youth Risk Behavior Survey" (YRBS), selected years 1993-2003.

NOTE: "On school property" was not defined for survey respondents. Population sizes from the Digest of Education Statistics, 2003 (NCES 2005–025) for students in grades 9 through 12 are SOURCE: Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Youth Risk Behavior Surveillance System (YRBSS), "Youth Risk 13,093,000 students in 1993; 13,697,000 in 1995; 14,272,000 in 1997; 14,623,000 in 1999; 15,058,000 in 2001; and 15,577,000 (projected) in 2003. The response categories for race/ethnicity changed in 1999 making comparisons of some categories with earlier years problematic.

Behavior Survey" (YRBS), selected years 1993-2003.
